

Campaign Performance Summary — H1 2025

Marketing & Growth Division | StreamVerse Entertainment

Overview

This report summarizes the performance of all major marketing campaigns run across digital and traditional channels during the first half of 2025. Total marketing spend was INR 38 Crore. Social Media and YouTube delivered the highest ROI. TV Ads showed diminishing returns compared to prior years. Influencer campaigns for Stellar Run were particularly effective, contributing to a 340% spike in search interest within 48 hours of launch.

Channel ROI Breakdown

Channel	Spend (Cr)	Impressions (M)	Conversions	ROI
Social Media	12.4	210	48,200	3.8x
YouTube	9.8	185	39,500	3.5x
Influencer	6.2	98	28,100	3.1x
TV Ads	7.1	320	18,400	1.6x
Search Ads	2.5	44	12,300	2.9x

Stellar Run Campaign — Case Study

The Stellar Run launch campaign is the most successful in StreamVerse history. A three-phase strategy was used: teaser (6 weeks pre-launch), launch burst (week 1), and sustain (weeks 2-8). Influencer seeding in the 18-24 demographic drove organic virality. YouTube pre-roll ads achieved a 14% click-through rate, three times the industry benchmark. The title trended on social media for 11 consecutive days post-launch.

Underperforming Campaigns

Comedy titles Laugh Factory and Comic Rush saw poor campaign performance despite adequate spend. Root cause analysis suggests the content itself lacks the quality to sustain audience interest beyond initial curiosity. Marketing cannot compensate for weak content fundamentals. Recommendation: pause comedy campaign investments until content quality improves.
